WHO AM I?

Bachelor's degree in Systems Engineering. I am a **full stack** developer with 5 years of experience building web and mobile applications, with experience in financial services and e-commerce software. Skilled in monolithic, serverless, and microservices architectures. I enjoy creating impactful and enjoyable digital experiences.

EXPERIENCE

Software engineer — July 2023 – Ongoing
Encora Inc. - *IT Consulting*

» Own and build microservices and libraries in a multi-tenant backend software application for the largest Peruvian consumer goods company, using Node.js and NestJS in Azure Cloud.

» Develop microservices using Azure DevOps, Azure Container Apps, Azure API Management, Azure SQL, Azure Storage Account and Azure Service Bus.

» Develop complex SQL queries, optimize stored procedures and apply database normalization techniques in Azure SQL.

» Write unit and component tests using Jest and Supertest, maintaining a code coverage above 80%.

- -

Backend developer — February 2022 – June 2023
Blum Saf - *Financial services*

» Develop business logic with Node.js, using mainly the following AWS services: Lambda, DynamoDB, Cognito, S3, EventBridge, CloudWatch and API Gateway.

» Propose efficient software architectures to solve complex tasks, using AWS CDK for managing AWS services and APIs for integrating third-party services.

» Collaborate in a cross-functional team including the CTO, the Product Owner and operations managers, through weekly sprint planning meetings and daily standup meetings starting at 09:00 (UTC -5).

» Design, build and document RESTful APIs using the API-First approach with OpenAPI/Swagger.

» Write unit and integration tests using Jest and Supertest, making sure the code coverage is above 80%.

» Build TypeScript scripts to automate repetitive tasks.

- -

Mobile developer — January 2020 – May 2021
INTECH - *E-commerce*

» Work as the main mobile developer, using the multi platform framework Flutter and Dart.

» Migrate the entire codebase of the mobile application, from Java (Android only) to Flutter (Android and IOS).

» Design high-fidelity wireframes in Figma.

» Build, sign and deploy the apps the Google Play Store.

Full stack developer — 2018 – January 2022
Freelance

» Design and build front end applications using primarily Node.js, Vue.js, Nuxt.js, Flutter, Dart and Kotlin.

» Design and build back end APIs using primarily Node.js, Go, Python, Azure SQL, PostgreSQL and MongoDB.

» Build, test and deploy applications in cloud computing platforms (AWS, Azure, GCP, VPSs, Docker containers).

» Integrate local payment platforms in new and existing applications (PayPal, MercadoPago, Culqi, IzyPay).

» Create and maintain software documentation.

CERTIFICATIONS

» AWS Cloud Practitioner (CLF-C01)
» Azure Fundamentals (AZ-900)
» Azure Developer Associate (AZ-204)

TECHNICAL SKILLS

Proficient with:

Node.js · JavaScript · TypeScript · Unit test · E2E test · Unix · Bash · GIT · Docker · Go · REST · CI/CD · Azure SDK/CLI · Azure Storage · Azure Functions · Azure SQL · AWS SDK/CLI · AWS S3 · AWS Lambda · AWS DynamoDB · PostgreSQL · Vue.js · Nuxt.js · TailwindCSS

Familiar with:

Python · Rust · GraphQL · gRPC · AWS CDK · Pulumi · GH Actions · OpenAI · Anthropic · MongoDB · UX/UI · Figma · React · Next.js · Kotlin · Flutter/Dart · Deno · Bun · Playwright

SOFT SKILLS

Creativity · Communication · Troubleshooting · Abstract thinking · Teamwork · Enthusiasm · Decision making · Proactivity · Adaptability

LANGUAGES

Spanish - native
English - proficient

EDUCATION

Systems Engineering — Bachelor's degree
San Cristóbal of Huamanga University
